

Quantum-ready, future-ready!

## Join us at the European Quantum Technology Conference between 16-20 October 2023 in Hannover!

Greetings, fellow quantum enthusiasts!

We're thrilled to extend an enthusiastic invitation to the upcoming European Quantum Technology Conference (EQTC) at the Convention Center within the heart of Hannover Messe. The countdown has begun, and we're eagerly gearing up to provide you with an experience that promises to be both intellectually enriching and socially rewarding. In this summer special edition of the Quantum Flagship newsletter, you will find a glimpse of the experience that awaits at our hallmark event.

### A Glimpse of the Visionaries - Our Speakers:

Prepare to be captivated by an awe-inspiring lineup of over 120 thought leaders, visionaries, and pioneers in the field of quantum technology from Europe's most promising projects. From groundbreaking research to real-world applications, from strategic insights to funding opportunities, the EQTC is the go-to platform for Europe's who's who in science, policy and

industry.

## Exploring the Quantum Frontier - Our Exhibitors:

The conference will not only be a gathering of brilliant minds but a showcase of cutting-edge innovations. Our exhibitors, a congregation of over 40 leading research organisations, industry players, startups and ecosystem initiatives from all over Europe will showcase their work in a dedicated space. Immerse yourself in interactive displays, hands-on demonstrations and fascinating insights and visit the official event site for continuous updates! (The full list of exhibitors will be released in early September.)

## Where Ideas Converge - Networking:

Beyond the captivating sessions, the conference offers a unique platform to boost your personal network with meaningful connections. Engage in conversations that transcend disciplines, share insights, and lay the foundation for collaborative ventures. Whether you're a seasoned professional, an aspiring student, or an ardent quantum enthusiast, the networking opportunities are boundless. The EQTC 2023 will offer plenty of time and space for on-site connections as well as visits to the region's leading labs and off-site social activities.

## Step into the Quantum Realm - Our Location:

Nestled within the global industry haven that is Hannover Messe, the Convention Center stands as an emblem of innovation itself. Picture yourself amidst the buzz of groundbreaking ideas, surrounded by cutting-edge exhibits and pioneering minds. The fusion of tradition and modernity in Hannover serves as the perfect backdrop for our quantum journey.

# Your Quantum Experience, Your Way - Ticket Options:

We understand that your engagement might be as unique as the quantum states themselves. Thus, we present an array of ticket options tailored to suit your preferences.

**Book your pass today!**
